SUBJECT INDEX

Aboriginal people, Australian
  effects of changes in transcultural nursing on growth of children, 119-126
Abuse, child
  nurse's role in prevention of, 194-195
  status report on child health policies on, 128-130
Academic settings
  career opportunities for neonatal nurses, 324
Adolescents
  Hispanic teen mother's origin of birth, use of prenatal care, and complications, 151-157
  need for programs for girls with developmental disabilities (Editorial), 199
  pain reports during lumbar puncture, 48-54
  perspectives of on chronic illness, 210-223
  postsurgical pain behaviors of, 41-47
  quality parental decision making and distress, 140-150
  sexually transmitted diseases in (Editorial), 139
  with diabetes, self-management development in, role of mother, 224-233
African-American patients
  construct validity of version of Oucher Scale for, 20-31
Alcohol abuse
  maternal, infant and childhood outcomes, 307-308
Analgesia, *see also* Pain management
  patient-controlled, for children with sickle cell disease, 15-19
Arab-American patients
  cultural factors in nursing care of, 349-355
Arthritis
  adolescents' perspectives of chronic illness, 210-223
Association for the Care of Children's Health
  pediatric pain resources from, 64-65
Asthma
  adolescents' perspectives of chronic illness, 210-223
Asthma (*Continued*)
  family care for school-aged children with, 356-366
  fatal, nurse-managed model for prevention, 367-375
Australia
  changes in transcultural nursing, effect on Aboriginal children, 119-126

Behaviors, pain
  interpreting infant pain, 164-174
  postsurgical responses of children and adolescents, 41-47
Birth weight
  family dynamics in families with very low birth weight infants, 95-103
Book and media reviews
  Behrman et al: *Nelson Textbook of Pediatrics*, 15th ed., 185-186
  Blackburn: *Working with Families in Early Intervention*, 267-268
  Capute and Accardo: *Developmental Disabilities in Infancy and Childhood*, 2nd ed., Vols. 1 and 2, 268-269
  DiLeo: *Young Children and Their Drawings*, 269-270
  Heusel: *Homeless Children: Their Perspectives*, 135
  Hiatt: *Violence; Talking with Your Child About Violence; Talking with Your Teen*, 186-187
  Lawrence: *Breastfeeding, A Guide for the Medical Profession*, 4th ed., 187
  Medela, Inc.: *Breastfeeding Your Baby—-Positioning* (video), 187-188
  Rapin: *Preschool Children with Inadequate Communication: Developmental Language, Disorder, Autism, and Low IQ*, 134-135
  Tamaro: *So That's What They're For!: Breastfeeding Basics*, 188

Book and media reviews (*Continued*)
Turecki: *The Emotional Problems of Normal Children: How Parents Can Understand and Help*, 136-137
Wolraich and Drotar: *The Classification of Child and Adolescent Mental Diagnoses in Primary Care, DSM-PC*, 186
Wright and Leahy: *Nurses and Families, A Guide to Family Assessment and Intervention*, 2nd ed., 185
Bronchopulmonary dysplasia
program and family costs for case-managed care of infants with, 244-251
Bronchoscopy, flexible
under conscious sedation, 343-348

Camp, summer
children's use of health facilities at, 200-209
Career opportunities
for neonatal nurses, 317-325
Case managed care
costs of for technology-dependent infants with bronchopulmonary dysplasia, 244-251
Chickenpox
varicella vaccine safety, efficacy, and administration, 85-94
Child health policy
child abuse and neglect
nurse's role in prevention, 194-195
status report, 128-130
Child Health Initiative, 326-327
Nurse Education Act, 263-264
profile of ethical principles, 383-386
Chronic illness
adolescents' perspectives of, 210-223
children's coping with repeated hospitalizations, 330-342
City of Hope National Medical Center
pediatric pain resources from, 65
Cocaine
foster parents of cocaine-exposed infants, 104-112
maternal use of, infant and childhood outcomes, 310-311
Cognitive behavioral interventions
and pain reports during lumbar puncture, 48-54
during painful procedures, program development for, 55-63
Community child health nursing
in New Zealand, 189-192
in Northern Ireland, 387-395
Community settings
career opportunities for neonatal nurses, 319
Conflict, maternal-child
role in self-management development of diabetic children, 224-233
Conscious sedation
pediatric flexible bronchoscopy under, 343-348
Construct validity
for African-American and Hispanic versions of Oucher Scale, 20-31
Continuity of care clinics
career opportunities for neonatal nurses, 319-320
Coping
chronically ill children coping with repeated hospitalizations, 330-342
Cost issues
in case managed care for technology-dependent infants with bronchopulmonary dysplasia, 244-251
Crohn's disease
adolescents' perspectives of chronic illness, 210-233
Cultural sensitivity
construct validity of African-American and Hispanic versions of Oucher Scale, 20-31
nursing care of Arab children, 349-355

Decision making
quality parental, and distress, 140-150
Developmental disabilities
need for programs for adolescent girls with (Editorial), 199
Developmental outcomes
environmental impact of NICU on, 279-289
Diabetes
adolescents' perspectives of chronic illness, 210-223
self-management development in children and adolescents with, role of mother in, 224-233
Disabilities
developmental, need for programs for adolescent girls with (Editorial), 199
mothers' experiences caring for children requiring gastrostomy tubes, 234-243
Disaster
children's reactions to, 376-382
Discharge protocols
for ventilator-dependent children, 175-184
Discharge, early
from NICU, 296-301
Distress
quality parental decision making and, 140-150

Distress, observed
and pain reports during lumbar puncture, 48-54
Drug abuse, *see* Substance abuse

Early intervention programs
career opportunities for neonatal nurses, 321-322
referral to by NICU nurses (Editorial), 67
Education, nursing
career opportunities in, for neonatal nurses, 324
Nurse Education Act, importance for pediatric nurses, 263-264
of neonatal nurse practitioners, 272-278
Endoscopic surgery
new approaches in infants and children, 252-261
Entrepreneurial activities
career opportunities for neonatal nurses, 322-324
Equipment
head lice detection and removal with electronic comb, 265-266
I.V. HOUSE IV protector, 196-198
rapid strep tests in pediatric clinical setting, 131-133
Ethics
profile of ethical principles, 838-386
Expert witnesses
career opportunities for neonatal nurses, 322-323

Families
costs for, of managed care for technology-dependent infants with bronchopulmonary dysplasia, 244-251
family care for school-aged children with asthma, 356-366
Family dynamics
in families with very low birth weight infants, 95-103
Family nurse practitioners
role in school-based family planning programs, 158-163
Family planning programs
reducing teen pregnancies through school-based, 158-163
Flexible bronchoscopy
under conscious sedation, 343-348
Foster parents
of cocaine-exposed infants, 104-112

G-tubes, *see* Gastrostomy tubes
Gastrostomy tube
mothers' experiences caring for children with, 234-243
Girls
with developmental disabilities, need for programs for (Editorial), 199

Head lice
detection and removal with electronic comb, 265-266
Heroin
maternal use of, infant and childhood outcomes, 308-310
Hispanic patients
construct validity of version of Oucher Scale for, 20-31
teen mother's origin of birth, use of prenatal care, and complications, 151-157
Home care
career opportunities for neonatal nurses, 320-321
follow-up after early discharge from NICU, 298-301
Hospitalization
chronically ill children coping with repeated, 330-342

Illness, chronic
adolescents' perspectives of, 210-223
Infants
costs of case-managed care for technology-dependent infants with bronchopulmonary dysplasia, 244-251
endoscopic surgery in, 252-261
family dynamics in families with very low birth weight, 95-103
foster parents of cocaine-exposed, 104-112
NICU nurses' indicators for interpreting pain in, 164-174
referral to early intervention programs, 67
sleep as indicator for pain relief in, 32-40
Injury behaviors
risk-taking in preschool children, 77-84
International Association for the Study of Pain
pediatric pain resources from, 65
International pediatric nursing
changes in transcultural nursing, impact on Australian Aboriginal children, 119-126
community child health nursing in New Zealand, 189-192
community children's nursing services in Northern Ireland, 387-395
Internet resources
on pediatric pain, 64

Interventions, pharmacologic
for pediatric pain, review of research on, 3-14
Intravenous (IV) sites
I.V. HOUSE site protector, 196-198
Ireland, Northern
community children's nursing services in, 387-395
I.V. HOUSE site protector, 196-198

Laparoscopy, surgical
uses in infants and children, 253-257
Legislation, *see* Child Health policy
Lice
detection and removal with electronic comb, 265-266
Lumbar puncture
cognitive behavioral techniques, temperament, observed distress, and pain reports during, 48-54

Marijuana
maternal use of, infant and childhood outcomes, 311-312
Mothers
caring for children with disabilities requiring gastrostomy tube, 234-243
role of maternal self-efficacy and conflict in diabetic child's self-management development, 224-233

Neglect, child
nurse's role in prevention of, 194-195
status report on child health policies on, 128-130
Neonatal intensive care unit (NICU)
early discharge from, 296-301
environmental impact of on developmental outcome, 279-
indicators for interpretation of infants' pain in, 164-174
nursing interventions to reduce stress of parents of preterm infants in, 290-295
referrals to early intervention programs (Editorial), 67
Neonatal nurse practitioners
career opportunities, 317-325
education of, for 21st century, 272-278
Neonatal nursing, 271-325
career opportunities in, 317-325
early discharge from NICU, 296-301
editorial, 271
environmental impact on NICU on developmental outcomes, 279-289
Neonatal nursing (*Continued*)
neonatal nurse practitioner education for 21st century, 272-278
neonatal skin, as ideal nursing interface, 302-306
reducing stress in parents of hospitalized preterm infants, 290-295
substance abuse, infant and child outcomes, 307-316
Neonatal products
career opportunities in research and development of, 323
New Zealand
community child health nursing in, 189-192
Newsletters
on pediatric pain, 66
Northern Ireland
community children's nursing services in, 387-396
Nurse Education Act
importance for pediatric nurses, 263-264
Nurse practitioners
family, role in school-based family planning programs, 158-163
neonatal, education for, 272-278
Nurses
role in prevention of child abuse and neglect, 194-195

Obesity
prevalence and correlates of in preschool children, 68-76
Oucher Scale
construct validity for African-American and Hispanic versions, 20-31

Pain reports
and cognitive behavioral techniques, temperament, and observed distress during lumbar puncture, 48-51
Pain, pediatric
behavior, temperament, distress, and pain reports during lumbar puncture, 48-54
cognitive behavioral interventions for painful procedures, 55-63
NICU nurses' indicators for interpreting infant, 164-174
Oucher scale, validity of African-American and Hispanic versions, 20-31
patient-controlled analgesia for sickle cell disease, 15-19

Pain, pediatric (*Continued*)
pharmacologic management of, intervention research on, 3-14
postsurgical pain behaviors of children and adolescents, 41-47
progress and challenges (Editorial), 1-2
selected resources, 64-66
sleep as indicator for pain relief in infants, 32-40
Painful procedures
cognitive behavioral interventions for, 55-63
Parenting skills
quality parental decision making and distress, 140-150
videotaped assessment of practices, 113-118
Parents
foster parents of cocaine-exposed infants, 104-112
of hospitalized preterm infants, nursing interventions to reduce stress in, 290-295
see also Mothers
Patient-controlled analgesia
comparison of two regimens for children with sickle cell disease, 15-19
PCP (phencyclidine)
maternal use of, infant and childhood outcomes, 312
Pharmaceutical companies
career opportunities for neonatal nurses, 323
Pharmacologic pain management
review of intervention research, 3-14
Pharyngitis
rapid strep tests in pediatric clinical setting, 131-133
Physiological indicators
for interpreting infant pain, 164-174
Postsurgical care
pain behaviors and responses of children and adolescents, 41-47
Pregnancy, teen
Hispanic teen mother's origin of birth, use of prenatal care, and complications, 151-157
reducing, by school-based family planning programs, 158-163
Preschool children
obesity prevalence and correlates of, 68-76
risk-taking in, 77-84
Preterm infants
environmental impact of NICU on developmental outcomes of, 279-289
nursing interventions to reduce stress in parents of hospitalized, 290-295
Prevention
of fatal asthma, nurse-managed program for, 367-375
Prevention (*Continued*)
reducing teen pregnancies through school-based family planning programs, 158-163
Public policy, *see* Child health policy

Rapid strep test
in pediatric clinical setting, 131-133
Red Alert Program
preventing fatal asthma in children, 367-375
Research
career opportunities for neonatal nurses, 324
Risk-taking
in preschool children, 77-84

School-aged children
with asthma, family care for, 356-366
School-based programs
head lice detection and removal with electronic comb, 265-266
reducing teen pregnancy by family planning programs, 158-163
Self-efficacy
maternal, role in diabetic child's self-management development, 224-233
Self-management development
in children with diabetes, role of maternal self-efficacy and conflict, 224-233
Sexually transmitted diseases
in adolescents (Editorial), 139
Sick day care
career opportunities for neonatal nurses, 322
Sickle cell disease
comparison of two patient-controlled analgesia for children with, 15-19
Skin, neonatal
ideal nursing interface, 302-306
Sleep
as indicator for pain relief in infants, 32-40
Streptococcal infections
rapid strep tests in pediatric clinical setting, 131-133
Stress
nursing interventions to reduce, in parents of hospitalized preterm infants, 290-295
Substance abuse
foster parents of cocaine-exposed infants, 104-112
maternal, infant and child outcomes, 307-316
Summer camp
children's use of health facilities at, 200-209

Surgery
endoscopic, new approaches in infants and children, 252-261
pain behaviors and responses of children and adolescents after, 41-47

Teenagers, *see* Adolescents
Temperament
and pain reports during lumbar puncture, 48-54
Thoracoscopy, surgical
uses in infants and children, 257-259
Training programs
on pediatric pain management, 65-66
Transcultural nursing
changes in, effect on Australian Aboriginal children, 119-126

Ulcerative colitis
adolescents' perspectives on chronic illness, 210-223

Vaccines
varicella, safety, efficacy and administration, 85-94
Varicella vaccine
efficacy, safety, and administration, 85-94
Ventilator-dependent children
challenges of discharging, 175-184
Very low birth weight infants
family dynamics in families with, 95-103
Videotapes
assessment of parenting practices, 113-118
on pediatric pain, 66
